

## Classroom Activities

1. Make a timeline of improvements over the years of disaster relief efforts from the 1913 flood to the most recent major flood.
2. In small groups, appoint a mayor and other important city or county officials. Your small city of 30,000 citizens is forecasted to receive a major storm that could cause potential flooding and flash floods in 3 days. What preparations do you mandate for your city to protect the citizens before the storm hits?
